MANAGEMENT AID DISPLAY

Andon Production Displays

Token Displays

People Counter

This is an aid to boost productivity by eliminating waste and improving production through monitoring and timely alerts. Displays can be programmed to give production count, track production time, etc.

INDUSTRIAL PARAMETER DISPLAYS

Programmable Indicators, Temperature Indicators, Temperature Humidity Indicators, Weighbridge Displays, Pollution Parameter Display, Modibus / Profibus Display, Large Size Timer/ Counter, Safety Scoreboards

Programmable to display critical parameters like quality of air, emissions, etc. that require being monitored and reported.

General Specifications

Inputs	4-20mA / 0-100mV / 0-10V / RTD / TC
Visibility	Indoor / Outdoor
Connectivity	RS232 / RS485 / USB / Ethernet / WiFi / GPRS / Bluetooth / Cloud
PC Software	Mobile App / Windows based / Web based
Digit Sizes	1" to 24"
Protocol	Modbus / Profibus/ Profinet / BacNet / Non Standard
Supply	DC / AC / Solar / Battery

- Production Display ● Profibus Display ● Modbus Display
- ANDON System ● Safety Display ● Price / Rate display ● Timer
- Counter ● TAKT/ Rate Totaliser ● Parameter Indicator
- Clock ● World Clock ● Message Display ● Advertising Display
- Traffic Display ● Parking Display ● Truck Terminal Display
- Game Score Display ● BMS / Automobile Service Centre Display
- Token Display ● Indian Calendar Display

Traffic Display

Gold Rate Display

Parking Display

WorldClock

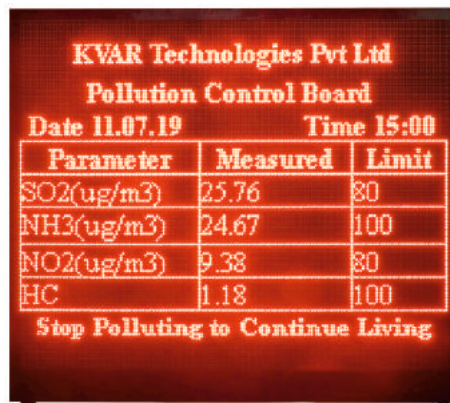

BMS Display

Shop Floor

Air Quality Display

Pollution Parameter Display

Process Parameter Display

INFORMATION DISPLAYS

Scrolling Message Displays, Gold Silver Rate Displays, Multi colour Multi Line Graphical Displays, Petrol Pump Displays, Parking Displays

Programmed to give real time information like financial data, social messages, weather forecasts, etc. for numerical applications

DIGITAL CLOCKS

Digital Electronic Wall Clocks, New Concept M Clocks, Tower Clocks, World Clocks

SCOREBOARDS

Games Score boards for Football, Cricket, Basketball, Kabaddi etc.

Universal Data Logger Models

Kv2020 Series Data Loggers / Scanner are electronic instruments that capture and record data related to physical parameters, such as temperature, humidity, pressure and liquid flow. Moreover, these also record electrical parameters including voltage & current and reproduce these in suitable form for the user. The reading of information, storage and reproducibility are the important parameters that define a data logger.

DLOG PC Software

Data Logger can connect to our Windows based PC Software DLOC for viewing of online data as well as historic data reports in numeric as well as graphic formats/

Model : KV2020

Features

Panel mount unit
96(H)x192(W)
16 x 2 alphanumeric LCD

Model : KV2021

Features

Touch screen TFT LCD display
Multiple pages with Online Graph
Web based Operation.
No software required

Model : KV2022

Features

Compact unit without display
WiFi connectivity
Web based Operation.
No software required

DIN Mount Temperature Humidity Data Logger

Model : KV2025

Features

Built In temperature humidity sensor
Colourful LCD display for readings
DIN mount compact elegant enclosure

Panel Mount Temperature Humidity Data Logger / Controller

Model : KV2026

Features

4 digit 2 row LED display
Membrane keypad for programming

Electrical Logger

Model : KV2027

Specifications

- * 20x4 Alphanumeric LCD display
- * Input 3 Phase 4 Wire AC / 1 Phase 2 Wire 10-500 V AC
- Current : 6 Amp CT
- * Load : 0.2 VA Max per phase for voltage & current inputs

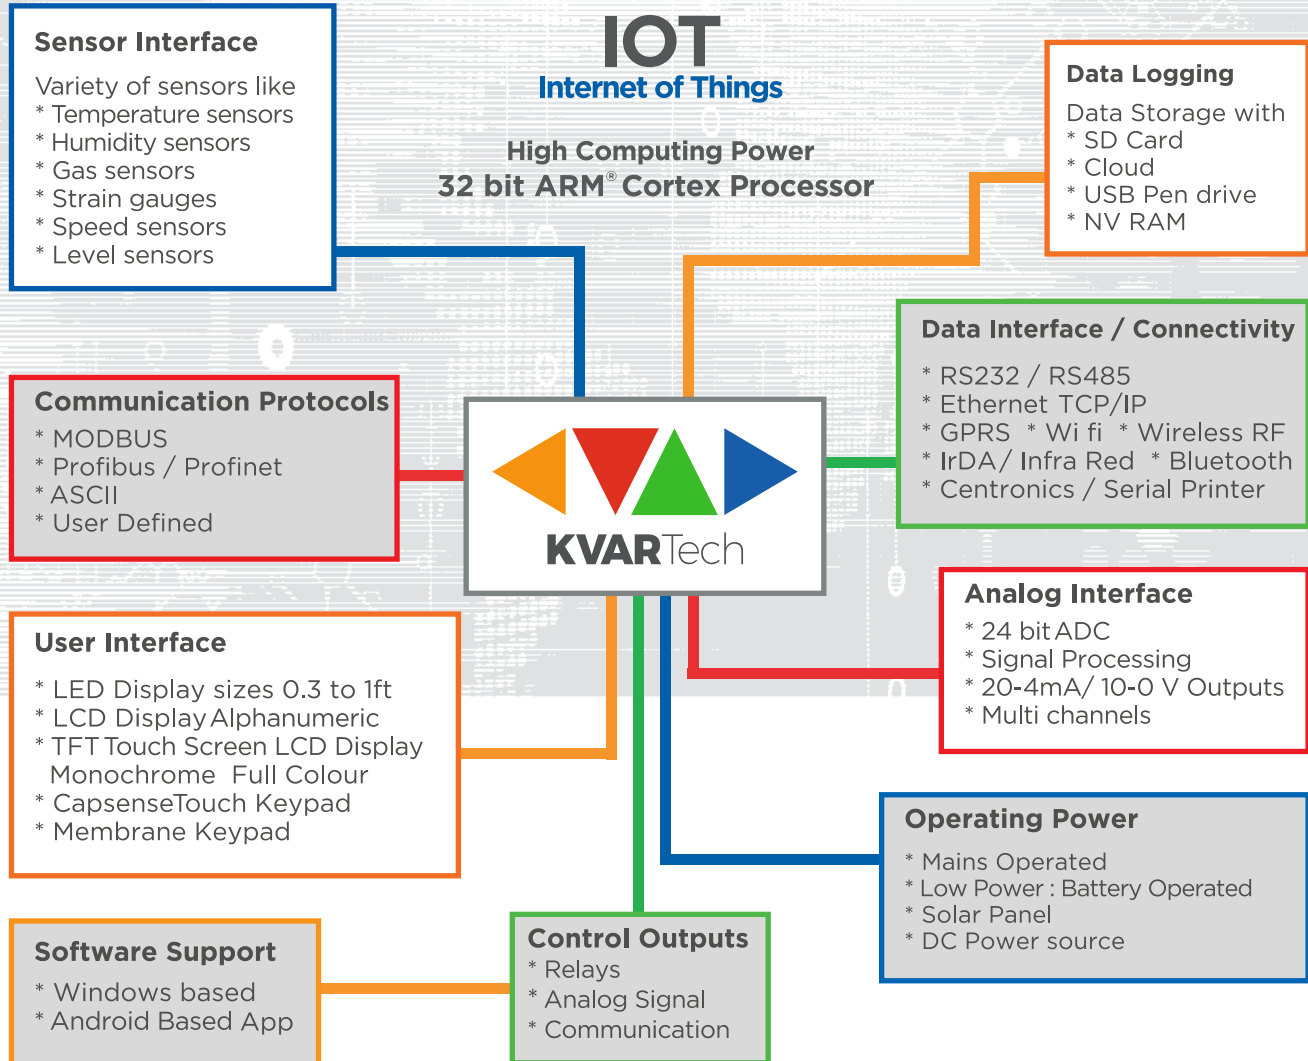

Model Selection Options

KV202X-A-B-C-D
X- 0 / 1/ 2
A- number of channels
B- Type of Input
C - Memory Size
D- Communication Options

GPRS Data Logger
